

Diabetes Patient Care Program

Treating and managing diabetes is expensive. On average, those with diabetes pay \$16,750 a year for care, according to the Centers for Disease Control. As your health plan, we want to help!

SAME INSULIN, LOWER COST

By calling our pharmacy team, you could get the same name-brand insulin you take now at a more affordable price.

FREE TESTING SUPPLIES

We've partnered with a local, Utah-based manufacturer to provide type 1 and type 2 diabetics with free hospital-grade testing supplies.

HOW TO PARTICIPATE:

Call and speak with one of our Prescription Benefit Analysts:
844-234-4472.
